WHY YOU SHOULD RECORD YOUR COLOR PALETTE:

Painting the exterior of your home can be overwhelming. Documenting your paint colors along with the surfaces they were painted will save you a lot of time with future touch-ups.

Use this *Exterior Colour Palette* to document and record your new or existing exterior colour pallet. Copy or print (page 7 and 8) for multiple rooms or larger exteriors. Store and file away all documents together for your future records.

Start by filling out the Project Details below on this page.

Then read the instructions on the following page and do your best to copy the formatting of each room/space.
